

Full Body Washcloths: Instructions For Use

Large antiseptic single-use body washcloths containing 2% CHG

Please follow local healthcare policy for personal protective equipment, hand hygiene & waste disposal guidelines

Preparation

- + Washcloths can be used straight from the pack or briefly warmed in the microwave (800W) for 30 seconds. Test the temperature of the washcloth before use.
- + Do not reheat pack.
- + Remove one cloth from the pack and open fully.
- + Close the lid when not in use to avoid any moisture loss.

How to Use

1. Neck, chest & stomach
2. Right arm/axilla
3. Left arm/axilla
4. Perineum
5. Right leg/hip
6. Left leg/hip
7. Back and shoulders
8. Lower back

+ Allow the skin to air dry. There is no need to rinse.

Disposal

- + Remove gloves and wash hands.
- + Dispose of cloth and PPE in the sanitary or general household waste bins.
- + Refer to the expiry date on the packaging.
