

Hygea Hand Wipes

Hygea Hand Wipes have been developed for quick hand cleansing and disinfection. Providing the most effective and hygienic alternative to soap and water.

Ideal for:

- + Patients who are bed bound or have reduced mobility
- + Healthcare workers who have limited access to a sink
- + Visitors who come into contact with patients & high frequency touch points

+ Proven Efficacy

PT1 biocidal product clinically proven to kill 99.999% of bacteria. Effective against non-enveloped viruses including Norovirus in 30 seconds.

+ Ready to Use

Pre-dosed, this waterless solution supports infection prevention best practises and efficiencies.

+ Different Packaging Options

Wipes available in individual sachets, soft packs and canister formats, providing facilities with complete choice and flexibility.

+ Reduced Carbon Footprint

Manufactured in the UK, supporting carbon net zero goals.

Up to 39% of patients have at least one hospital associated pathogen on their hands within 48 hours of admission.
